COLUMNEA X STAVANGER

Craig's is honored to present, for the first time in America, this exquisite Norwegian flowering plant. Hybridized by M. Havaland of Norway, this graceful vine has small, dark green, oval leaves, a red stem, and clear scarlet trumpet shape flowers, one to two inches long. It blooms in early Spring. This plant is beautiful, unusual, and a good keeper.

Rooted cuttings available to growers by June, 1960. Plants in flower ready by Spring, 1961.

U. S. Plant Patent applied for.

Rooted Cuttings \$350.00 per thousand
